Heredity

Volume 63 Number 1 August 1989

Donald M. Waller and Susan E. Knight
Genetic consequences of outcrossing in the cleistogamous annual, *Impatiens capensis.* III. Interlocus associations 1

S. L. Krebs and J. F. Hancock
Tetrasomic inheritance of isoenzyme markers in the highbush blueberry, *Vaccinium corymbosum* L. 11

J. S. Parker, G. H. Jones, L. Edgar and C. Whitehouse
The population cytogenetics of *Crepis capillaris.* II. The stability and inheritance of B-chromosomes 19

Klea Lamnissou and E. Zouros
Interspecific ovarian transplantations in *Drosophila*: vitellogenin uptake as an index of evolutionary relatedness 29

T. M. Davies and R. W. Snaydon
An assessment of the spaced-plant trial technique 37

G. Periquet, S. Ronsseray and M. H. Hamelin
Are *Drosophila melanogaster* populations under a stable geographical differentiation due to the presence of *P* elements? 47

Robin E. Owen and A. R. G. Owen
Effective population size in social Hymenoptera with worker-produced males 59

J.-L. Da Lage, M.-L. Cariou and J.-R. David
Geographical polymorphism of amylase in *Drosophila ananassae* and its relatives 67

J. W. van Ooijen
Estimation of additive genotypic variance with the F_3 of autogamous crops 73

D. S. Holmes and S. M. Bougourd
B-chromosome selection in *Allium schoenoprasum.* I. Natural populations 83

J. Kubba, B. M. Smith, D. J. Ockendon, A. P. Setter, C. P. Werner and M. J. Kearsey
A comparison of anther culture derived material with single seed descent lines in Brussels sprouts (*Brassica oleracea* var. *gemmifera*) 89

G. H. Jones and J. A. Croft
Chromosome pairing and chiasma formation in spermatocytes and oocytes of *Dendrocoelum lacteum* (Turbellaria, Tricladida); a cytogenetical and ultrastructural study 97

R. Costa, L. A. Zonta, M. Osti and S. D. Jayakar
Genetic analysis of adult locomotor activity in *Drosophila melanogaster* 107

P. Herrero, J. L. Bella and B. Arano
Characterization of heterochromatic regions in two *Triturus alpestris* subspecies (Urodela: Salamandridae) 119

C. Biémont and C. Gautier
Interactions between transposable elements for insertion in the *Drosophila melanogaster* genome 125

Elizabeth Gillet and Hans H. Hattemer
Genetic analysis of enzyme phenotypes using single tree progenies 135

BOOKS RECEIVED 143

Volume 63 Number 2 October 1989

R. A. E. Tilney-Bassett and A. B. Almouslem
Variation in plastid inheritance between pelargonium cultivars and their hybrids 145

Jerry A. Coyne
Mutation rates in hybrids between sibling species of *Drosophila* 155

Shih-Foong Chin and Geoff H. Gordon
Pollination with irradiated pollen in rice—*Oryza sativa* L. I. First (M1) generation 163

Shih-Foong Chin and Geoff H. Gordon
Pollination with irradiated pollen in rice—*Oryza sativa* L. II. The second (M2) generation 171

Daniel J. Schoen and Robert G. Latta
Spatial autocorrelation of genotypes in populations of *Impatiens pallida* and *Impatiens capensis* 181

Patrick A. Carter, Jane M. Hughes and Myron P. Zalucki
Genetic variation in continuously breeding population of *Danaus plexippus* L.: an examination of heterozygosity at four loci in relation to activity times 191

G. Ribó, J. Ocaña and A. Prevosti
Effect of larval crowding on adult mating behaviour in *Drosophila melanogaster* 195

J. Labate, A. Bortoli, A. Y. Game, P. H. Cooke and J. G. Oakeshott
The number and distribution of esterase 6 alleles in populations of *Drosophila melanogaster* 203

M. Jones, H. Rees and G. Jenkins
Synaptonemal complex formation in *Avena* polyploids 209

J. R. de Miranda and Paul Eggleston
Analysis of dominance for competitive ability in *Drosophila melanogaster* 221

H. Allen Orr
Localization of genes causing postzygotic isolation in two hybridizations involving *Drosophila pseudoobscura* 231

Bruno Baur and Matthias Klemm
Absence of isozyme variation in geographically isolated populations of the land snail *Chondrina clienta* 239

Jeffrey L. Feder and Guy L. Bush
Gene frequency clines for host races of *Rhagoletis pomonella* in the midwestern United States 245

Nasser Bahrman and Catherine Damerval
Linkage relationships of loci controlling protein amounts in maritime pine (*Pinus pinaster* Ait). 267

GENETICAL SOCIETY ABSTRACTS (11 to 13 April 1989 Meeting) 275

Volume 63 Number 3 December 1989

P. Boursot, F. Bonhomme, J. Catalan and K. Moriwaki
Variations of a Y chromosome repeated sequence across subspecies of *Mus musculus* 289

F. Bonhomme, N. Miyashita, P. Boursot, J. Catalan and K. Moriwaki
Genetical variation and polyphyletic origin in Japanese *Mus musculus* 299

B. Y. Chen and W. K. Heneen
Fatty acid composition of resynthesized *Brassica napus* L., *B. campestris* L. and *B. alboglabra* Bailey with special reference to the inheritance of erucic acid content 309

J. J. Bull and Michael G. Bulmer
Longevity enhances selection of environmental sex determination 315

Lidia Poggio, Alicia D. Burghardt and J. H. Hunziker
Nuclear DNA variation in diploid and polyploid taxa of *Larrea* (Zygophyllaceae) 321

Suzanne I. Warwick and Brian K. Thompson
The mating system in sympatric populations of *Carduus nutans, C. acanthoides* and their hybrid swarms 329

Lutful Hassan, R. N. Jones and U. K. Posselt
A novel source of genetic variation in ryegrasses (*Lolium multiflorum, L. perenne*) 339

J. I. Izquierdo and J. Rubio
Allozyme polymorphism at the *αGpdh* and *Adh* loci and fitness in *Drosophila melanogaster* 343

Y. Sano
The direction of pollen flow between two co-occurring rice species, *Oryza sativa* and *O. glaberrima* 353

G. Alvarez, C. Zapata, R. Amaro and A. Guerra
Multilocus heterozygosity at protein loci and fitness in the European oyster, *Ostrea edulis* L. 359

H. E. Connor and D. Charlesworth
Genetics of male-sterility in gynodioecious *Cortaderia* (Gramineae) 373

Jane F. Sampson, Stephen D. Hopper and Sidney H. James
The mating system and population genetic structure in a bird-pollinated mallee, *Eucalyptus rhodantha* 383

V. Boutin-Stadler, P. Saumitou-Laprade, M. Valero, R. Jean and Ph. Vernet
Spatio-temporal variation of male sterile frequencies in two natural populations of *Beta maritima* 395

Z. W. Luo and M. J. Kearsey
Maximum likelihood estimation of linkage between a marker gene and a quantitative locus 401

Ian J. Gordon and David A. S. Smith
Genetics of the mimetic African butterfly *Hypolimnas misippus*: hindwing polymorphism 409
